

SCOPE OF WORK

1. OVERVIEW

The Contractor shall provide all the necessary labor, equipment, material, transportation and any necessary supervision to provide the delivery of locomotive lube oil and other railroad lubricating products to VRE yards in both Manassas and Fredericksburg, Virginia.

2. GENERAL REQUIREMENTS

- A. The Contractor shall deliver locomotive lube oil and other railroad lubricating products upon request to VRE rail yards at the following locations:
1. Broad Run Yard, 10637 Piper Lane, Bristow, VA 20136; and
 2. Crossroads Yard, 9400 Crossroads Industrial Parkway, Fredericksburg, VA **22408**.
- B. The Contractor shall be on call twenty-four (24) hours a day, seven (7) days per week and designate a point of contact, including that person's 24/7 telephone number.
- C. Normal delivery shall be once per week to each yard.
- D. The Contractor shall be capable of delivering an average of seven hundred and fifty (750) gallons of main engine lube oil per week to both yards. The delivery shall be metered and the Contractor shall be able to print a receipt.
- E. Deliveries of locomotive lube oil shall be bulk, directly into totes. Other product volumes shall be light and variable.
- F. The Contractor shall take all due precautions to prevent any oil or lubricant spillage when totes or tanks are filled. The Contractor shall be liable for any damage caused by the service performed or by the failure to perform such service.
- G. The Contractor shall perform an on-site training class in the operation of equipment.
