From: Doug Allen

Date: January 16, 2015

Re: Authorization to Award a Supplemental GEC VI Task Order for VPDES Industrial Stormwater General Permit Compliance

Recommendation:

The VRE Operations Board is asked to authorize the Chief Executive Officer to award Supplemental Task Order 1A for Virginia Pollutant Discharge Elimination System (VPDES) Industrial Stormwater General Permit Compliance. This is a supplemental task order to AECOM’s Task Order 1 under the GEC VI contract. Task Order 1 was executed in the amount of $49,773. Supplemental Task Order 1A will be for $53,699 ($48,772, plus a 5% contingency based on the sum total in the amount of $4,927.) The amended Task Order 1 total amount (Task Order 1 plus Supplemental Task Order 1A) is not to exceed $103,472.

Background:

In May of 2013, under the CEO’s authority, VRE executed Task Order 1 for $49,773 with AECOM to provide engineering services related to compliance with the VPDES Industrial Stormwater General Permit at the Broad Run and Crossroads rail yards. Task Order 1 was estimated to cover associated work through the spring of 2014.

The VPDES General Permit, issued by Virginia’s Department of Environmental Quality (DEQ), provides continuous coverage to dischargers of stormwater from
industrial activities. Engineering services required to support VRE with permit compliance includes updating the Stormwater Pollution Prevention Plans (SWPPPs,) stormwater discharge monitoring, site inspections and training of VRE maintenance contractor employees.

This Supplemental Task Order covers engineering services estimated through the spring of 2016.

**Fiscal Impact:**

The costs for these engineering services are included in the approved FY 2015 and the proposed FY 2016 Operating budgets for Facilities Maintenance.
Virginia Railway Express
Operations Board

Resolution
9B-01-2015

Authorization to Award a Supplemental GEC VI Task Order for
VPDES Industrial Stormwater General Permit Compliance

WHEREAS, in May of 2013 the CEO executed Task Order 1 to AECOM for $49,773 under the GEC VI contract for engineering services related to compliance with the VPDES Industrial Stormwater General Permit; and,

WHEREAS, Task Order 1 was estimated to cover associated work through the spring of 2014; and,

WHEREAS, associated work includes updating the SWPPPs, stormwater discharge monitoring, site inspections and employee training; and,

WHEREAS, this Supplemental Task Order covers engineering services estimated through the spring of 2016;

NOW, THEREFORE, BE IT RESOLVED THAT, the VRE Operations Board does hereby authorize the Chief Executive Officer to award Supplemental Task Order 1A under the GEC VI contract to AECOM for VPDES Industrial Stormwater General Permit Compliance in the amount of $53,699 for an amended Task Order 1 total amount (Task Order 1 plus Supplemental Task Order 1A and a 5% contingency) not to exceed $103,472

Approved this 16th day of January 2015
