The Virginia Railway Express, a joint project of the Northern Virginia Transportation Commission and the Potomac Rappahannock Transportation Commission, will provide safe, cost-effective, accessible, reliable, convenient, and customer responsive commuter-oriented rail passenger service. VRE contributes to the economic vitality of its member jurisdictions as an integral part of a balanced, intermodal regional transportation system.

SUCCESS AT A GLANCE

Data provided reflects March 2018 information.

PARKING UTILIZATION
The total number of parking spaces used in the VRE system during the month, divided by the total number of parking spaces available.

AVERAGE DAILY RIDERSHIP
The average number of boardings each operating day inclusive of Amtrak Step-Up boardings but excluding “S” schedule operating days.
△ Same month, previous year.

ON-TIME PERFORMANCE
Percentage of trains that arrive at their destination within five minutes of the schedule.
△ Same month, previous year.

SYSTEM CAPACITY
The percent of peak hour train seats occupied. The calculation excludes reverse flow and non-peak hour trains.

OPERATING RATIO
The monthly operating revenues divided by the monthly operating expenses, which depicts the percent of operating costs paid by the riders.
* Board-established goal.

REASONS FOR DELAYS

- Train Interference
- Signal/Switch Failure
- Passenger Handling
- Restricted Speed
- Mechanical Failure
- Other*

VRE operated 624 trains in March.

Our on-time rate for March was 92%.

Forty-seven of the trains arrived more than five minutes late to their final destinations. Thirteen of those late trains were on the Manassas Line and thirty-four of those late trains were on the Fredericksburg Line.

FINANCIAL REPORT

Fare revenue through the first nine months of FY 2018 is $1.50 million above budget (a favorable variance of 5.0%) and is up 0.1% compared to the same period in FY 2017.

The operating ratio through March is 58%. VRE’s budgeted operating ratio for the full twelve months of FY 2018 is 50%.

A summary of the FY 2018 financial results through March follows, including information on the major revenue and expense categories. Please note that these figures are preliminary and unaudited.

Operating Ratio

|                  | 58% | 52% | Goal | 50% |

(1) Total jurisdictional subsidy is $17,250,240. Portion shown is attributed to Operating Fund only.
Each month, the VRE Operations Board receives financial information summarizing year-to-date operating revenues and expenses relative to budget. At the midpoint of the fiscal year, an amended budget is prepared for Board approval based on actual results as of that date. This FY 2018 year-end forecast of revenues and expenses is based on the amended budget presented to the Board in December 2017.

The operating net position for FY 2018 is forecast at a surplus of $6.6 million. Approximately $0.3 million of this surplus is associated with unspent project expenses that may be carried forward into the next year, as described below.

**Operating Revenues – $2.4 million positive variance**

- Fare Revenue is forecast at $42.5 million for the year, an increase of $2.0 million or 4.8% over budget. Ridership and revenue projections for FY 2018 were conservative due to uncertainty over the impacts of the completion of the WMATA SafeTrack program, but VRE ridership has remained stable, leading to higher revenue.
- Other Revenue is forecast to be above budget by $0.5 million or 27%, primarily due to rising interest rates resulting in greater interest earnings on VRE’s reserves.
- Federal and State Revenue is forecast to be below budget by $0.1 million or 0.3%, primarily due to slightly lower than expected grant and project management reimbursement.
Operating Expenses – $3.2 million positive variance

- The largest single expense variance is in Diesel Fuel, which was budgeted at $4.8 million and is forecast to be under budget by $1.0 million. Fuel price increases that were expected in FY 2018 did not materialize, and VRE has already reduced its fuel price projections in the approved FY 2019 budget.
- All other operating expenses are forecast to be under budget by $2.2 million, or 3.4% of budgeted operating expenditures:
  - Information Technology costs are forecast to be $0.7 million below budget. This includes unspent amounts for Other Professional Services of $0.2 million related to a revised schedule for the SharePoint project. The unspent funds may be carried forward into FY 2019. Total projected savings for Hardware/Software Maintenance is $0.4 million, related to the development of several ongoing IT projects.
  - Total projected savings for Facilities Maintenance is projected to be $0.6 million, primarily due to projected savings in Non-Routine Yard Maintenance and in Non-Routine Station/Facility Maintenance and Office Maintenance. Unspent funds of $0.1 million may be carried forward into FY 2019 for the VRE office renovation.
  - Executive Management costs are projected to be $0.4 million under budget, primarily due to lower expenditures on Legal Fees (under budget by $0.3 million).
  - Total projected savings for salary and fringe benefits in the Chief of Staff and Project Implementation divisions is $0.3 million due to staffing vacancies.
  - Other net departmental savings are projected at $0.2 million, chiefly in Marketing and Safety and Security.

Non-Operating Expenses – $1.0 million positive variance

Certain ‘non-operating’ expenses that are not part of the Capital Improvement Program (CIP) are also included in the year-end operating forecast. The forecast of $1.0 million combined positive variance on these items includes unspent contingency of $0.7 million, unused Bad Debt expense of $50,000, and Insurance expenses under budget by $0.3 million.

A recommendation on the use of the projected surplus will be presented as part of the Proposed FY 2020 Budget in December 2018. Preliminary uses for the projected surplus are to carry forward $0.3 million into the FY 2019 budget for uncompleted projects, to fund one-time items in FY 2020, and to increase the Capital Reserve.

*The local subsidy amount shown here is the amount needed for operations; total subsidy is $17.25M.
FACILITIES UPDATE

The following is a status update of VRE facilities projects:

Completed projects:
1. Removal of vegetation along north edge of L’Enfant storage track
2. Replacement of light poles and fixtures at Manassas Station platforms and canopies

Projects scheduled to be completed this quarter:
1. Repairs to fascia and soffit at Woodbridge Station east building
2. Replacement of ADA parking signage at Brooke and Leeland Road Stations
3. Repairs to concrete and erosion control on ADA ramp and stairs at Leeland Road Station
4. Upgrades to electrical power supply for new communication cabinet at Burke Centre Station
5. Repairs to platform concrete at Manassas Station
6. Replacement of light fixtures at Manassas Station depot
7. Repainting of platform warning messages at Broad Run Station
8. Cleaning of HVAC ductwork at Alexandria Headquarters, Woodbridge Station vendor spaces, Quantico Station, Fredericksburg office, and Crossroads and Broad Run storage yard buildings

Projects scheduled to be initiated this quarter:
1. Design of platform widening at L’Enfant Station
2. Replacement of tactile warning strip at L’Enfant Station
3. Replacement of signage at Franconia-Springfield and Fredericksburg Stations
4. Painting of Franconia-Springfield Station
5. Continuation of painting of Woodbridge Station
6. Replacement of light poles and fixtures at Fredericksburg Station
7. Repairs to platform lighting and communications conduits at Manassas Park Station
8. Replacement of parking lot signage at various stations
9. Installation of monitoring wells on two outfall drainage pipes at Broad Run Yard to allow for accurate discharge sampling for VPDES General Permit compliance
10. Repairs to pavement and striping at Crossroads and Broad Run yards
11. Renovations to Alexandria Headquarters (leased Suite 201, adjacent to current VRE offices)
12. Replacement of parking lot entrance signs at majority of stations
13. Replacement of waste and recycling receptacles throughout VRE system

Ongoing projects:
1. Development of specifications for modernization of Woodbridge Station east elevator
2. Development of IFB for Canopy Roof Replacement at the Backlick Road Station and second station (TBD)
3. Repairs to pavement and striping at Franconia-Springfield, Rippon, Quantico and Leeland Road Stations and parking lot G in Fredericksburg
UPCOMING PROCUREMENTS

Scope of Work Pending:

- Purchase of Passenger Elevators
- Construction of the Lifecycle Overhaul and Upgrade Facility
- Program Management Services
- Graphic Design Services
- Canopy Roof Replacement at the Backlick and Rolling Road Stations
- Passenger Railcar Truck Overhaul Services
- Modernization of VRE Woodbridge Station East Elevator
- Repair and Overhaul of Passenger Car HVAC Assemblies
- Repair and Overhaul of Passenger Car Wheelchair Lift Assemblies
- Seat Bottoms for Passenger Cars
- Automated Electric Motor Parking Brake Systems
- Facility Security Services
- Railcar End Body Door Diaphragm Kits
- Construction of Benchmark Road Slope Stabilization
- Construction of Rolling Road Platform Extension
CAPITAL PROJECTS UPDATES
AS OF APRIL 6TH, 2018

Broad Run Expansion Study (BRX)
- Participated in Project Management Team (PMT) meeting on March 7th
- Participated in cost estimate format reviews on March 12th and March 15th
- Continued finalizing conceptual design details and preliminary evaluation of parking alternatives and other design elements
- Participated in Federal Transit Administration (FTA) coordination meeting on March 19th
- Participated in workshop planning meeting on March 19th
- Participated in a conference call on March 12th with AECOM to discuss the approach of the different parts of the cost estimate
- Forwarded two approved-for-payment invoices from Continental Field Services through VHB's General Planning Contract Task Order to VRE Manager of Project Development
- Discussed property mosaic with Continental Field Services
- Requested base map for Continental Field Services to use from AECOM which was delivered March 6th and then forwarded to Continental Field Services
- Spoke to Prince William County staff regarding the Route 28 project
- Participated in internal review with VRE Chief Executive Officer (CEO) on March 22nd
- Participated in calls on project on March 21st and March 23rd with team
- Participated in catch-up meeting with VRE Manager of Project Development on March 23rd
- Participated in a conference call on March 30th with AECOM on cost estimate for additional work
- Reviewed meeting notes from March 19th conference call with FTA and forwarded to VRE Manager of Project Development
- Reviewed meeting notes from March 19th conference call on parking proposals and forwarded to VRE Manager of Project Development
- Reviewed meeting notes from March 2nd PMT meeting/conference call and forwarded to VRE Manager of Project Development
- Participated in a conference call with Prince William County transportation staff on April 2nd to discuss adjacent proposed County roadway projects and Route 28 expansion for which the design builder has received NTP
- Participated in the bi-weekly PMT meeting on April 4th
- Met with Continental Field Services and discussed property issues on April 4th
- Participated in conference call with VRE Manager of Project Development and K & J Consultants about Safety and Security analysis for project

System Plan 2040 Update
- Completed Task Order (TO) scope of work, TO forms, and Independent Cost Estimate (ICE)

FY18 National Transit Database 100 Percent Survey
- TO approved on March 16th by VRE Operations Board
- TO signed and Notice to Proceed (NTP) issued on March 22nd
- Kick-off meeting held on March 29th
Constrained Long Range Plan (CLRP) Update/Quadrennial CLRP Financial Analysis

- Coordinate development of CLRP project forms for SmartScale-funded, I-66 Outside the Beltway (OTB) Concession Payment funded VRE projects with Virginia Department of Transportation (VDOT)

Midday Storage Replacement Facility

- Reviewed draft Categorical Exclusion (CE) with additional traffic and cultural resource analysis requested by FTA
- Participated and led discussion on March 30th with District of Columbia State Historic Preservation Office (SHPO) with respect to cultural resources issues

Rolling Road Platform Extension

- Participated in field visit with VRE Chief Engineer and VRE Project Manager on March 29th
- Finalized TO for Construction Management (CM) activities

Crossroads Real Estate Acquisition

- Prepared and submitted offer package to VRE Legal on February 8th

Long Bridge Expansion Study

- Provided contact information for Threat and Vulnerability Assessment analysis to consultant team
- Draft Memorandum of Agreement (MOA) with Federal Railroad Administration (FRA) comments received and forwarded for Legal review

Southeast High Speed Rail Corridor (DC2RVA) Coordination

- Participated in coordination call with DRPT and the consultant team on March 27th

Washington Union Station Project Environmental Impact Statement (EIS)

- Provided comments to Amtrak on 90 percent drawings

Lorton Platform Extension

- Final invoice for Hammerhead processed and paid in March

Quantico Station Improvements

- 90 percent design for station and 90 percent design for site, civil, drainage, track, and retaining wall in vicinity of station continue to be reviewed and commented on by stakeholders
- Utility location and potential conflicts coordinated on site through CSXT, Marine Corps Base Quantico (MCBQ), and other existing utilities and one call systems
- FRA and FTA review of temporary platform in progress
- Progress calls held March 15th and March 29th

Franconia-Springfield Station Improvements

- 30 percent plan revisions pending final emergency egress and American with Disabilities Act (ADA) access decisions by VRE, as well as design review comments by CSXT engineering and operations staff

Lorton Station Improvements (Second Platform)

- 30 percent plan revisions pending final emergency egress and ADA access decisions by VRE, as well as design review comments by CSXT engineering and operations staff
Rippon Station Improvements
- Continued development of 30 percent plans and environmental documents

Leeland Road Station Improvements
- Continued development of 30 percent plans and environmental documents

Brooke Station Improvements
- Continued development of 30 percent plans and environmental documents

Alexandria Pedestrian Tunnel Project
- Reviewed and revised list of assumptions
- Participated in conference call on March 13th with Gannett Fleming (GF) to review plans received and additional information required from GF
- Review comparison matrix provided by GF
- Corresponded with GF about baggage cart and size; forwarded information to Amtrak for confirmation
- Reviewed GF-prepared study report components and cost estimate
- Participated in VRE internal meeting to review report and cost estimates from GF
- Participated in conference call on March 22nd with GF
- Received revisions to GF-prepared study plans, report components and cost estimate from GF on April 6th

Crossroads Lifecycle Overhaul & Upgrade Facility (LOU)
- Reviewed draft LOU Preliminary Hazard Analyses (PHAs) sent by Kensington Consulting on March 5th
- Coordinated with Kensington Consulting for Office of Development (OoD) Safety Awareness training on March 30th
- Revised CM Request for Proposals (RFP) and sent back to procurement/contracts department
- Provided additional comments to VRE procurement/contracts on LOU CM
- Discussed Kensington Consulting Hazard report with VRE Chief Safety, Security & Compliance Officer
- Identified CSXT property easement/agreement for April Board meeting
- Received comments from Michael Baker International about Crossroads Yard drainage
- Reviewed draft Lease Agreement with CSXT language and attachments and provided comments to VRE Chief Operating Officer (COO)
- Received draft Preliminary Hazard Analysis (PHA) and Draft Criteria Conformance Checklist (DCCC) from K&J Consultants

L’Enfant (North) Storage Track Wayside Power
- Power connection to test train made on March 16th
- Met with staff from VRE Contracts Department to discuss contract close-out
- Discussed close-out with C3M Power, LLC
- Finalized TO change order proposal request, and procurement sent to HDR
- Prepared required forms for VRE procurement to process contract amendment

L’Enfant (South) Storage Track Wayside Power
• Received and processed invoice from HDR
• Contacted Pepco regarding two additional items including plan reviews; requested meeting on April 3rd
• Contacted HDR regarding Pepco changes and meeting on April 3rd
• Discussed agreement with CSXT for this project and agreed to revision of the current agreement
• Visited site with VRE Chief Engineer prior to meeting with Pepco and HDR on April 3rd
• Contacted CSXT for dates to schedule a meeting about the wayside power and trees that CSXT needs to place in same area

Slaters Lane/Alexandria Track 1 Access
• One outstanding progress report was passed through from CSXT to Northern Virginia Transportation Authority (NVTA); no additional progress reports are due
• Requested final design plans reported to have been completed in May 2017

Manassas Park Station Parking Expansion
• Spoke with VHB regarding the outstanding items from Phase A and preparation of a scope of work for Phase B
• Attended review meeting with City of Manassas Park and VHB to review Traffic Impact Analysis (TIA) and 30 percent plan comments
• Reviewed, revised and distributed meeting minutes from the meeting with the City of Manassas Park
• Discussed close-out items of Phase A with VRE Planning Program Administrator
• Drafted scope for Phase B design and limited construction services
• Conducted conference call with VHB on April 6th

MAY 2018

IN THIS ISSUE:

LETTER FROM THE CEO: ASK THE PROJECTS TEAM (p1)

FBI K-9 TRAINING (p3)

BRING YOUR FULL-SIZE BIKE (p4)
There’s plenty to love at Potomac Shores. Like award-winning homes. A new elementary school. Sports fields, parks and trails. And a close-knit community of residents enjoying events and experiences that make it feel like you belong to one great, big happy family.

Share the love on Facebook or Twitter #PSILoveYouVA
Like last year, our Projects Team will be available for questions at the 2018 Meet the Management events. Also like last year, the team will display presentation boards with planned development information relevant to the station.

With several large-scale projects intended to improve overall system capacity and operations, our planners and engineers are equipped to discuss phases and estimated timelines for projects like the Alexandria tunnel, the Crystal City station relocation, Long Bridge, the Broad Run expansion, and system-wide third tracking.

A key component of the Meet the Management event series is the opportunity for our team to hear directly from our riders. Rider input is highly valued and an important part of the system design process. We want to hear from you as well as to inform you of the capital projects to further improve your commute.

With this said, please do not only stop to chat with the Projects Team during this year’s Meet the Management series – I would also appreciate time to speak with you personally. Hope to see you soon.

Sincerely,

DOUG ALLEN
Chief Executive Officer
Virginia Railway Express

Plan time to meet with VRE Management & Staff before you catch your train home.
COMMUNITY EVENTS

Occoquan introduces Discover Occoquan, a free family-friendly event in Downtown Historic Occoquan, on May 19, 2018

The Town of Occoquan and the Occoquan Merchants Guild will host Discover Occoquan Day on Saturday, May 19, 2018 from 10 a.m. to 8 p.m. in downtown Historic Occoquan. This brand new event features a full day of free activities for everyone, including a boat parade, interactive classes and free demonstrations hosted by Occoquan businesses, historic tours, live entertainment, a photo booth, children’s activities, and more!

The day kicks off with the Blessing of the Fleet Parade along the Occoquan River beginning at 10 a.m. and viewable from the Town Dock at Mamie Davis Park, 205 Mill Street. Then, from 11 a.m. to 4 p.m., visitors are invited to browse the town’s unique shops, boutiques, galleries, restaurants, and cafes and experience all that Occoquan has to offer. Throughout the day, businesses will be hosting a variety of free drop-in classes and demonstrations including yoga in the park, painting for adults and kids, pen and ink drawings, massages, candle pouring, fiber art, jewelry making, puzzle making, SCUBA, pet CPR, and more!

In addition to these free activities, there will be a special flash sale from 5 p.m. to 6 p.m. Participating Occoquan businesses will have blue balloons. Finally, this fun-filled day will culminate with a free outdoor concert at River Mill Park, 458 Mill Street from 6 p.m. to 8 p.m., featuring rock and soul music by The Sidleys. Bring a lawn chair or blanket to sit on to watch the show!

Admission is free. Free on-street and public lot parking is available in-town. In addition, off-site parking with shuttle bus service sponsored by Patriot Scuba is available from the Route 123 Commuter lot at the intersection of Old Bridge Road and Gordon Boulevard and drops off at 305 Mill Street. The shuttle service, provided by Earnie Porta’s Occoquan Tourism Company, will collect patrons from the lot on the half hour beginning at 11 a.m. through 5 p.m., with a final pick up in town at 8 p.m. The shuttle is free, but donations to the non-profit Patriots for Disabled Divers are appreciated. Stay the day and check your strollers, lawn chairs and blankets at Patriot Scuba, 305 Mill Street, for the concert at River Mill Park.

For more information, visit: occoquanva.gov/discover-occoquan or Facebook.com/OccoquanCraftShow
VRE TRAINS WITH FBI K-9s

VRE hosts multiple law enforcement K-9 trainings throughout the year to practice successful detection of illegal items in various scenarios onboard as well as at our Maintenance and Storage Facilities (MSF). Last month we held a joint event with the Manassas Airport at our Broad Run MSF where we welcomed a total of 92 units representing various federal and local agencies.

Sponsored by the FBI Laboratory Explosives Unit, agencies and their explosive divisions K-9s in attendance were:

- Federal Bureau of Investigation
- US Secret Service
- Metropolitan Washington Airports Authority Police
- National Institute of Health Police
- US Marines – Quantico
- US Army – Fort Lee
- Department of Homeland Security
- Transportation Security Administration
- Defense Intelligence Agency
- Stafford County Sheriff
- Alexandria Police
- Prince William County Police
- Town of Leesburg Police
- Arlington County Police
- Falls Church Police Department
- Maryland Park Police
- Prince George’s County Police
- Montgomery County Police

Each animal was prompted to locate explosives in six different locations throughout the Broad Run MSF and on a railcar.
Bring Your Full-Size Bike Onboard
May 18th Is Bike to Work Day

While you may not be able to ride your bike door to door from home to the office, you can most likely ride to work from the station closest to your office and back again. Celebrate May as National Bike Month, and utilize select trains to carry along your full-size bike.

A few VRE policies to be aware of:

* Bicycles must board at the northern-most car on the train and utilize the southern half of the car.
* No more than two (2) bicycles are allowed on a car.
* Bicycles must be tethered to the bench seats using a bungee cord attached to the eyelet on the seat frame. The south-end bench is distinguishable by only having four (4) folding seats.
* The bench seating on the north end of the car is priority seating for passengers with disabilities, and cannot be used for bicycles.
* Bicycles will be boarded and removed last – after all other passengers have boarded or detrained.
* Bicycles must be clean and free of grease.
* Passengers are not permitted to ride bicycles on the platforms or trains.

The Friendliest Trains for Two-Wheels:
Please note full-size bikes are only allowed on select VRE trains.

“Hirshhorn in the City” Debuts
1980s-Inspired Posters by Washington Artists on Streets of DC

The Hirshhorn Museum and Sculpture Garden partnered with the Southwest Business Improvement District to present “Brand New SW,” a public art project of graphic posters exploring the connection between art and 1980s marketing. The project highlights the connection between the art world today and the ‘80s art scene that radiated from New York City’s East Village, where a pioneering generation of artists used elements of advertising to blur the line between art and commerce.

The Hirshhorn identifies No Kings Collective, NoMüNoMü and SUPERWAXX as a new generation of artists that push the limits of art, brand and community engagement. “It’s thrilling to see the ideas and aesthetics of the exhibition ‘Brand New’ resonate decades later in the vision and practice of these exceptional DC artists,” said Hirshhorn Director Melissa Chiu. “More and more, contemporary art is a vital part of the everyday life of Washington, a creative force that is driving city-wide conversations about the importance of culture in the 21st century.”

About the Hirshhorn:
The Hirshhorn Museum and Sculpture Garden is the national museum of modern and contemporary art and a leading voice for 21st-century art and culture. Part of the Smithsonian, the Hirshhorn is located prominently on the National Mall in Washington, D.C. Free to all, 364 days a year.

About the SWBID:
The Southwest Business Improvement District spans 483 acres in Southwest Washington and works to enhance its connectivity, improve the state of infrastructure and strengthen the area’s identity as a lab for arts, culture and transformative urban technologies within the nation’s capital.

SUPERWAXX (artist of above poster) is a native of Richmond, Virginia, currently creating and residing in Washington, D.C. Her work is heavily influenced by animated cartoons, comic books, popular culture and street art.
MAX Corporation and Regal Entertainment Group announced in January an expansion of the companies’ existing joint revenue sharing agreement to include the installation of 11 additional IMAX® theatres in the U.S – including the Fredericksburg Regal location. The installation in Fredericksburg is now complete and open.

“We believe in the strategic value IMAX delivers to our business, which is why we’re increasing our IMAX footprint and extending the length of our agreements for all of our IMAX sites,” stated Amy Miles, CEO of Regal Entertainment Group. "Regal is focused on delivering the best customer experience and we believe that IMAX both delights our guests and drives incremental revenue for our business.”

COMMUNITY UPDATE

NEIGHBORHOOD NEWS: CITY OF MANASSAS
SINISTRAL BREWING COMPANY OPEN IN HISTORIC DOWNTOWN MANASSAS

Sinistral Brewing Company recently opened a new brewery in Historic Downtown Manassas. The 3,500 square foot brewery, located at 9423 Main Street, adjacent to the Philly Tavern, consists of a 7-barrel brewhouse, taproom and beer garden.

“The City of Manassas is excited to welcome Sinistral Brewing to our Historic Downtown,” said City Manager W. Patrick Pate. “The City of Manassas has quickly become the location of choice for craft brewers and distilleries because of our unique, vibrant and business friendly environment.”

Direct from owner and head brewer Blane Perry’s passion for the art and craft of brewing, Sinistral Brewing Company offers a selection of flagship beers, rotating seasonal specialties and experimental beers using locally sourced ingredients. Flight tastings, pints and crowler fills are all available.

For more information, visit: facebook.com/sinistralbrewingcompany

NEIGHBORHOOD NEWS: FREDERICKSBURG
IMAX NOW OPEN AT FREDERICKSBURG REGAL CINEMAS

MAX Corporation and Regal Entertainment Group announced in January an expansion of the companies’ existing joint revenue sharing agreement to include the installation of 11 additional IMAX® theatres in the U.S – including the Fredericksburg Regal location. The installation in Fredericksburg is now complete and open.

“We believe in the strategic value IMAX delivers to our business, which is why we’re increasing our IMAX footprint and extending the length of our agreements for all of our IMAX sites,” stated Amy Miles, CEO of Regal Entertainment Group. "Regal is focused on delivering the best customer experience and we believe that IMAX both delights our guests and drives incremental revenue for our business.”
Metro announced on April 10th that it is working with its fare payment vendor to become “mobile ready” by next year, enabling customers to pay for their Metro trip using a mobile device rather than a SmarTrip card. The new mobile fare payment platform will work with Metro’s existing infrastructure, eventually allowing customers to tap their mobile device to the white target at the faregate. The payment process is designed to be seamless and will have a similar experience to tapping a SmarTrip card today. Using the app, customers will be able to check fares, get real-time service information, and add money to their SmarTrip account instantly through Auto-Reload when the value is low.

Metro expects to complete the mobile fare payment upgrades in 2019, creating a platform that supports multiple mobile payment providers. Because payment in the transit environment must meet certain technical requirements to ensure quick transaction speeds, each mobile provider will announce the ability for customers to pay for Metro trips using their service on their own timetable.

Mobile payments will be supported on Metrorail, Metrobus, and regional bus services that accept SmarTrip today. The modernization project will be done in three phases. During the first phase, which is already underway, Metro will upgrade existing fareboxes, faregates and fare vending machines to support mobile payments and extend their useful life until they can be replaced. During the second phase of the project to be completed by 2020, Metro will install new faregates at more than 900 entry/exit lanes at all 91 stations. The current faregates are more than 25 years old, using original power and communications systems. The new faregate design will be selected based on a number of factors, including customer input, speed, reliability, and ability to prevent fare evasion. In addition, new fareboxes will be installed on buses to replace the existing 15-year old equipment. The final phase of the fare modernization will include new fare vending machines that will be more user friendly with large touchscreens, better accessibility for customers with disabilities, multi-language support, and a smaller physical footprint.

VRE is communicating with WMATA on the project. VRE hopes for interconnectivity in the longterm, and will support WMATA in compatibility efforts.
Reach our passengers with advertising opportunities on our platforms, in our trains and through our award-winning RIDE Magazine. 70 percent of passengers have an annual household income of more than $100,000.

“I’m sorry, we’ve got parent teacher conferences tonight, and that always takes forever.”
Ever notice how many pop songs reference trains?

**VRE ASKS: WHAT'S YOUR FAVORITE "TRAIN SONG?"**

Friendly Reminder: Remember to wear your headphones. While we're sure you have great taste in music, audio books, and video – we ask that you do not use the speaker on your device onboard.
