

SAFETY & SECURITY MESSAGE

Safety and Security are two critical areas that contribute to VRE's success. Safe companies are better able to hire and retain the best employees, who in turn work to deliver a great commuting experience to passengers. Additionally, the region in which we operate is one of the most security-sensitive areas in the United States. Each of us must be constantly aware of our unique role in securing VRE and never become complacent.

INDUSTRY DAY 2020

TODAY'S AGENDA

- Welcome
- Safety Briefing
- CEO Address
- Procurement Overview
- System Improvement Program Overview
- Upcoming Projects Overview
- DRPT Projects Overview
- Task Order Contracts (IDIQ)

The information provided at this assembly regarding costs and schedule is subject to change. Attendance at this meeting, and content associated with this meeting, are not commitments on the part of VRE to award contracts.
