PROJECT DESCRIPTION
The purpose of the Virginia Railway Express Midday Storage Facility (VRE MSF) project is to replace the current storage space leased from Amtrak at the Ivy City Coach Yard in the District of Columbia. The project will include planning, designing, and constructing a permanent midday storage facility for VRE trains that travel to the District. The proposed facility will be used to store commuter trains on weekdays between the inbound morning commute and the outbound afternoon commute. VRE will work with members of the community, stakeholders, and property owners to assess potential impacts and determine ways VRE can be a good neighbor.

PROJECT LOCATION

PROJECT PROCESS

CONCEPT DEVELOPMENT
- Identify Goals
- Review Alternatives
- Select Preferred Alternative

PRELIMINARY DESIGN & NATIONAL ENVIRONMENTAL POLICY ACT (NEPA)
- Adopt Preferred Alternative
- Complete NEPA Analysis
- Design Storage Facility (30%) 
- Develop Preliminary Cost Estimate.

FINAL DESIGN
- Complete Detail Design and Construction Documents
